Golf Course Etiquette

For the good of all players and enjoyment of the game, all players are Required to exhibit sportsmanship and proper golf course etiquette during a round, on the driving range and in the clubhouse. This includes letting faster and smaller groups play through, Never hitting into a group in front of you, and not playing music loud enough for other groups to hear.

Single players and twosomes can expect to play through a threesome or a foursome Only when the larger group is playing slower than the expected pace exhibited on the Visage screen, and if only they are not being held up by other groups. The Proshop staff will gladly pair single players with others.

Players are expected to care for the course, this includes repairing all ball marks, raking bunkers, and filling in fairway divots with sand.

COURSE CONSTRUCTION:

For several days during the month of May hole 5 will be closed to work on building a wooden walking bridge to the green in the place of the current atrocious land bridge. Your patience and understanding will be worth it in the end as we make this transition.

MASK UPDATE:

CCA is softening our approach on face coverings. Fully vaccinated people are encouraged to still wear a mask, but are not required. Everyone is urged to wear a mask when in close proximity to others.

HOURS OF OPERATION:

We are in the process of establishing a later closing time for the driving range. The Pro Shop will still close between 6:00 and 6:30 pm, while the Snack Bar will remain open until 7:30 or 8:00 pm to purchase range balls.

CALLAWAY GAP FITTING:

On May 11th the Callaway Company will be on site to conduct a First EVER all-day Gap Fitting for CCA members and customers.

Using varying lengths and lofts club manufacturers design sets so they deliver equal and predictable "gaps" between clubs. Your swing-type determines your impact-angle which positively affects your actual "gaps". On the fitting day the Callaway staff will use Trackman to measure your carry distances with your woods and irons in an effort to identify large gaps that are making the game hard for you. The biggest gaps are found on the "ends" of your set. The short-end includes the short irons and wedges, and on the long end includes the hybrids vs fairway woods, vs long irons.

Call 501-851-0095 to schedule your free 30 minute appointment.
