WE ARE HIRING!

We are gearing up for the golf season!

We are looking for someone to help out in the Pro Shop, potentially during the week but especially on the weekends!

Duties are not limited to but mainly consist checking in tee times, taking phone calls, selling range balls and merchandise.

Dear CCA members & other loyal players,

Here is an update on our course conditions and the temporary damage done by the extreme cold December weather.

GREENS:

Slow recovery from a late fall fungus made some greens more susceptible than usual to damage from the extreme cold temps in December, where Maumelle temps dropped almost to zero overnight. The greens on holes #2 and #4 suffered the most damage.

The greens would ultimately recover and "grow-in" but not at a pace that we or you would find acceptable. For this reason we are in the process of securing Tiff-Eagle II sod for both greens. Unfortunately, the sod, which is grown in Louisiana, will not be ready for cutting until early to mid-May. Please excuse the temporary condition of those two greens.

Several other greens had damage and will need normal repairs, but all can and will be handled locally using a combination of plugging and sodding from our own nursery and if necessary purchasing more sod.

FAIRWAYS AND TEES:

Our fairways "appear" to have suffered significant winter-kill as well, but their health is surprisingly much better than they appear right now. Soil samples from a variety of affected areas indicate very healthy turf-grass. As soon as the ground temperatures warm we should see a steady recovery.

We are committed to doing our part to bring about a quick recovery and a return to excellent playing conditions. As always, your patience is appreciated.

Sincerely,

Country Club of Arkansas
